

ALI MASHAGHI

09120455449 ALIU.MASHAGHI@GMAIL.COM [GITHUB](#)

OBJECTIVE

Aspiring Data Scientist and AI Engineer with a strong interest in Machine Learning, Deep Learning, and Natural Language Processing (NLP). Experienced in data analysis, predictive modeling, and building intelligent systems using Python and TensorFlow. Skilled in developing and deploying data-driven web applications and APIs using Django, with a focus on integrating machine learning models into scalable backend systems. Passionate about solving real-world problems through data, automation, and intelligent software solutions.

SKILLS AND ABILITIES

Programming: Python

Frameworks & Libraries: TensorFlow, NumPy, Pandas, Seaborn, Matplotlib

Tools: Jupyter Notebook

Core Expertise: Machine Learning, Deep Learning, NLP, CNN, Regression & Classification, Data Visualization

Web Development Basics: HTML, CSS, SQL integration with Flask, Django

EXPERIENCE

2024 – Present

- Designed and trained predictive models using TensorFlow for regression and classification problems.
- Developed CNN models for image recognition and feature extraction.
- Implemented NLP pipelines for text analysis and sentiment classification.
- Built a lightweight Flask web app to visualize and present model outputs.
- Conducted data preprocessing and exploratory analysis using Pandas, NumPy, Seaborn, and Matplotlib.
- Experienced in building RAG systems and working with OpenAI tools
- Experienced in facial recognition with OpenCV
- Basic experience working with PostgreSQL, Docker, AWS, C#, C++
- Expert in working with premiere pro and after effects

EDUCATION

B.Sc. in Software Engineering

Islamic Azad University, Tehran Central Branch – 2021 – Present

CERTIFICATIONS

- **Artificial Intelligence Course** – AioLearn Academy (Certified)

COMMUNICATION

Strong collaboration and presentation skills, with the ability to explain complex machine learning concepts in clear, accessible language. Experienced in teamwork and sharing technical insights effectively.
